Malaysian Journal of Chemistry
(Special Issue)
Volume 21(2), 2019

Pseudo-ternary Phase Behaviour of Palm-Based Microemulsion Insecticides Farah Afiqah Abdullah, Ismail Ab Raman and Darfizzi Derawi	1
Separation of Saturated and Unsaturated Fatty Acids of Palm Fatty Acid Distilled via Low-temperature Methanol Crystallization Majd Ahmed Jumaah, Mohamad Firdaus Mohamad Yusoff, Jumat Salimon and Murad Bahadi	8
Physicochemical Characteristics of Malaysian Crude Palm Kernel Oil Murad Bahadi, Mohamad Firdaus Mohamad Yusoff, Jumat Salimon, Majd Ahmed Jumaah and Darfizzi Derawi	17
Esterification and Evaluation of Palm Oil as Biolubricant Base Stock Nurazira Mohd Nor, Darfizzi Derawi and Jumat Salimon	28
Photostability of PVC Films by using Safety Synthetic Biolubricant as Additives Emad Yousif, Rahimi M. Yusop and Dina S. Ahmed	36
Formulation Screening of Palm-based Nanoemulsion for an Oral Drug Vehicle of Phyllanthin Nurin Afiqah Zairul Azman, Ismail Ab. Raman, Ibrahim Jantan and Darfizzi Derawi	43
Biolubricant Production from Palm Stearin Fatty Acids and Pentaerythritol Fatimatuzzahraa Mohd Fadzil, Jumat Salimon and Darfizzi Derawi	50
Temperature Effects toward Corrosion Rate of Carbon and Mild Steel Using Red Palm Oil as Natural Corrosion Inhibitor M. Ili Afiqah, Yusri Zulkafli, Norinsan Kamil Othman, Azwan Lazim, Wan Nur Aini Wan Mokhtar and Mohd Firdaus Mohd Yusoff	64

**Activated Carbon Effects on Morphology and Permeability of
Poly(L-lactic acid)-Poly(ethylene glycol) Membranes**
Afifah Muhamad Sidik and Farah Hannan Anuar
