General QA/QC Procedures for Testing Laboratories

24 September 2025

COURSE OBJECTIVE

The training workshop is intended to provide participants with the knowledge of QA/QC (Quality Assurance / Quality Control) procedures which are the essential requirements for Good Laboratory Quality Management and Accreditation (ISO/IEC 17025 and ISO 9001) in achieving reliable and accurate testing results. This workshop will also look into the practical aspects of establishing effective QA/QC procedures for the quality management in the organization.

COURSE CONTENT

- General QA principles in accreditation
- Introduction to QA and QC for laboratories
- Personnel qualifications and training
- Internal quality audits and quality review
- Reference materials and traceability
- Method validation and verification
- Proficiency testing
- Measurement uncertainty General QC procedures in testing
- Replicate analysis
- Spike recovery analysis with certified references materials
- Instrument performance and calibration
- Use of control charts

PAYMENT OF FEES

IKM Members : RM500/pax

Non-IKM Members : RM600/pax

Payment (cheque / internet banking) shall be made to:

Payee : Institut Kimia Malaysia (Cawangan Selatan)

Bank : Alliance Bank

Account No.: 01130-001-001-3950

Kindly WhatsApp payment proof to:

ChM. Ms. Poo Sher Lin (013-8152749)
